Environmental Policy

Kshatriya School aims to reduce the environmental impact of our operations by reducing consumption of energy, Water and Waste wherever possible.

We inspire & preserve our environment by:

Promoting plantation during special days & birthdays within the school premises.

Educating parents also regarding plantation in their locality & residence on special days.

Creating environmental awareness at all levels for employees, students, parents & visitors.

Inculcating principles of efficient consecration for preserving natural recourses.

Implementing appropriate system to minimize pollution.

Creating environmental awareness through different activities which are incorporated in our curriculum.

Complying with all relevant environmental legislation and standards, and exceeding applicable environmental regulations.

Assigning students to dispose of waste and recycled products in the appropriate manner.

Implementing programme for waste prevention, reduction, collection and segregation. We reuse, recycle, store and dispose all wastes arriving from the building by using safe methods.

We aim to include a sustainability & environmental focus into the inquiry unit across all year levels and in the classrooms where possible.

Educate students & promote a "Switch off when you leave" policy, technological equipment, lighting and cooling/heating.

Ensuring biodiversity by involving students, parents, teachers & community members in planting and maintaining our gardens.

This policy will be reviewed as part of the school's review cycle.

An healthy and clean environment is essential for us and for upcoming generation.

Managing Director.
